(linked at https://web.njit.edu/~kenahn/)

Grading

Final grades will be either "S (Satisfactory)" or "U (Unsatisfactory)", based on attendance.

To get "S", students should attend and sign on sign-in sheets for all seminars posted and updated on https://web.njit.edu/~kenahn/seminar.html and announced as "Phys Dept Seminar" by email.

If a student cannot attend a seminar, he or she should send Prof. Ahn an email with a brief explanation why he or she cannot attend. To make up for a missed seminar, the student should attend other seminar offered by either Physics Dept or other NJIT department, and provide Prof. Ahn with a copy of the note that the student writes at the seminar as a proof of attendance.

Otherwise, "U" grade will be given.

The seminar that a student misses during his or her attendance at a conference does not require make-up.

Links to information on seminars in some departments at NJIT can be found on the course website.
