College of Science and Liberal Arts
Department of Physics
Introductory Astronomy and Cosmology, Section 006**

Phys 202–006

Spring 2018

Tuesdays, 04:00 p.m. to 05:25 p.m.

Kupfrian Hall, Room 104

Thursdays, 04:00 p.m. to 05:25 p.m.

Kupfrian Hall, Room 104

Textbook

Jeffrey Bennett, Megan Donahue, Nicholas Schneider, and Mark Voit. *The Cosmic Perspective Fundamentals*, Second Edition. Pearson Education, Inc., United States of America, 2015.

Grade

Your final grade will be based upon three examinations (25% each) and one Final Examination (25%). The examinations will be administered on the following dates.

First Examination	Tuesday, February 06, 2018
Second Examination	Tuesday, March 06, 2018
Third Examination	Thursday, April 12, 2018
Final Examination	to be announced

If you miss an examination, you will receive a grade of zero that will be calculated into your final grade. There are no make-up examinations. The following table will determine your final grade.

85% to 100%	A
80% to 84%	B+
70% to 79%	B
65% to 69%	C+
50% to 64%	C
40% to 49%	D
0% to 39%	F

The examination grades will not be curved, nor will the final grades be curved. Each examination, including the Final Examination, will consist of multiple-choice and/or true-false questions, all of which will come directly from topics discussed in class and/or topics discussed in the textbook. Each examination, including the Final Examination, will be closed book and closed notes. No formula sheet or cheat sheet will be provided, nor will either be permitted for any of the examinations.

Introductory Astronomy and Cosmology (Phys 202) and Introductory Astronomy and Cosmology Laboratory (Phys 202A) are two separate courses for which you will receive two separate and independently-determined grades. Moreover, you are free to be registered for either one of these courses without being registered for the other course. If you are registered for both courses, withdrawal from one course does not mean you must withdraw from the other course.
